

Jibouti Require Isaias accept humility and withdraw from the conflict zone!!!

- Said to be a minister of the Soviet Union during the Cold War do not remember at the time of any of the heads exactly but I think it's Joseph Stalin, generally received the Minister a phone call the Office of the President and his side in particular, and the dialogue by the Minister as follows: No, no, no, no, Yes!!!.

- Asked the president why I answered yes? Answered the minister (the caller asked me, Does this mean that all the answers "no"? I said yes!!! And thus saved the minister himself from certain death!.

- The similarities between the minister and call Isaias Isaias start without the all-or-cause, Seetmr in allegiances and does not respond or say yes, but if forced to it!!!.

- Today, history repeats itself, as I jog Isaias to Algeria broken after he announced publicly through the horns to

be informed that the sun will rise from Morocco if it were breaking the Badme front Here today also withdraw from the territories that made up the dispute there with Djibouti and accept the mediation country after tarnished the reputation of Eritrea and the Eritrean people make Anmozja fractious peoples.

- Yes became human Eritrean wherever he went besieged regime's practice shameful and brought to Eritrea and its people shame, those policies that have made people of Eritrea seems to the world like a man loves blood and addicted to war, and the best example of this war and the conflict with all neighboring countries from Sudan, through Ethiopia, and crossing the Red Sea with Yemen and the culmination of Djibouti recently!.

- The President of the jog system, which does not believe only by force to the emir of Qatar and begging to intervene and resolve the border crisis provoked by himself, and to reject all Alrjaouat and

mediation made by the leaders of many countries and international organizations.

- Isaias does not learn already went to Algeria, Meles Zenawi and Meles, maneuvering and declares to the world that the resolution is Badis, but he can not do, however, one of the Ethiopian people decide to stop the war or the maintenance, by means of a meeting of the Ethiopian Parliament.

(And talk to us here for the Eritrean people who did not decide to go to war, did not ask out of them, Vacas is the owner of the floor and resolution).

- In a similar situation today also party to Djibouti, where the decision-maker was required withdrawal of the army Isaias first initial condition was carried out Isaias kneeling in humility (Mamrmta) with the remainder of the dignity of the Eritrean people!!.

- And you could not enter into such a maze from the start or accept initiatives made by the facilitators before, as it was possible to

avoid war with Ethiopia, which has paid 20 thousand people from the Eritrean people, which was enough for him he had lost in the war of liberation if he accepts the initiatives introduced and mediations which refused!!!.

You God, the people of Eritrea,,,
